

Appendix A: Route Specific Data

Introduction

Appendix A displays the site specific resource information and required mitigation measures for all unauthorized routes proposed as additions to the National Forest Transportation System (NFTS) and any Maintenance Level 1 roads that are proposed to be opened to public motorized use in the alternatives.

Route Specific Mitigations

Site specific mitigation is provided where needed for all routes and open riding areas proposed for addition to the NFTS in action alternatives. Cultural resource mitigations are provided by site within focus areas in the Cultural Resources section of Chapter 3. Mitigations to ensure that proposed routes will meet standards required for the Road Management Objective (RMO) or Trail Management Objective (TMO) are provided below:

- A** Season of use for deer winter range -- this mitigation is applied only in the Humbug drainage which has been designated as critical deer winter range by the California Department of Fish and Game.
- B** Delineate routes added to NFTS through additional signing, barriers, or placement of brush to camouflage takeoffs. This mitigation is intended to identify the actual route to be used when a number of unauthorized routes exist within the area. Define perimeters of open riding areas. See also site-specific mitigations in the Recreation section of Chapter 3.
- C** Cave related -- clearly define areas and do not provide access to caves. This mitigation would be applied to the open riding area on the Goosenest District near cave resources.
- D** Improve drainage/establish tread on up to 28 motorized trails and 3 roads (45N53.3, 7H002.2 and 7H002.3). This mitigation involves installing rolling dips, and compacting or shaping the trail surface to remove rills or small channels where runoff could be concentrated. See also site-specific mitigations in the Soils section of Chapter 3.
- H** Seasonal restriction for Swainson's hawk nest -- this season of use applies to one route (8Q002.3) and is considered necessary because the nest is along an unauthorized route that is rarely used and the birds may not be habituated to vehicle disturbance.
- S** Develop switchbacks on steep portions -- this mitigation applies to a single motorized trail (46083502) in the Humbug drainage. Part of this trail currently runs down the fall line; this mitigation will reduce channelization of water and provide a safer riding experience.
- W** Improve crossings by rocking and shaping approaches -- this will be done on 3 routes (7H002.2, 7H002.4, and 51-02) that cross perennial streams.
- N** Route meets RMO or TMO standards without mitigation.

Table A-1. Maintenance level 1 roads changing to Maintenance level 2 roads for each Alternative including class of vehicle and season of use

Route ID	Mitigation	Length (miles)	Alternatives

51-08	0.004	All	Yearround								

¹ All routes meet standards for RMOs with no mitigations required with the exception of several routes accessing cultural resource sites and 51-02 which crosses a perennial stream. Mitigation to the routes to protect sites is displayed in the Cultural Resources section of Chapter 3 by focus area to maintain confidentiality of the site location. Mitigation for the stream crossing would include rock the crossing and approaches.

Table A-6. ML 2 roads that currently allow non-highway legal vehicle use (mixed use) changing to highway legal vehicles only for each alternative

Road #	Length (miles)	Alt 2	Alt 3	Alt 4	Alt 5	Alt 6	Alt 7
45N03X	0.50	x		x	x	x	x
45N29*	2.30	x		*	*	*	*
45N39	0.99	x		x	x	x	x
46N16	2.25	x		x	x	x	x
40N21	2.22	x		x	x	x	x
45N28	0.28	x		x	x	x	x
46N16A	1.20	x		x	x	x	x
43N30	0.22	x		x	x	x	x
Total Miles	9.96	9.96	0	7.66	7.66	7.66	7.66

Specific maintenance level 3 roads proposed to be available for mixed use, and maintenance level 3 roads proposed for change to maintenance level 2, are displayed by alternative in the Transportation section of Chapter 3 of this FEIS.

* This road was identified in the proposed action (Alternative 2) as part of the KNF NFTS; it was later determined that the road is under the jurisdiction of Siskiyou County, not the KNF.
